- **Call the Fire Department** from a safe place.
- Dial **9-1-1** from a campus phone, pay phone or campus emergency phone
- Non-Emergencies or Information regarding:

Fire Ext5-3960 **Chemicals** Ext5-3960

Biological Ext5-3960 **Radioactive Material** Ext5-3960

Facilities Repair Work Ext 5-2222

Local Television / Radio Station or Campus Website
WTOP FM 103.5 or WWW.umd.edu

Building Evacuation Plan- Reunion Location

IPST Building: Leave Building and meet across the street
At JM Patterson Building Front Door

CSS Building: Leave building and meet across the street
At entrance to Regents Garage

Lab or Chemical Incident:

- *Attend to any injured or contaminated person
- *Remove everyone from exposure
- *Evacuate area, close doors to effected area
- *Call for Emergency Response if needed – 911
- *Notify Department and College Offices
- *Stay in area to direct first responders

What is Emergency Preparedness?

Disasters and emergencies can happen anytime and anywhere without warning leaving you with limited time to respond. The best way for you to cope with these sudden emergencies is to plan ahead. By having tools and plans in place, you will be able to react appropriately and survive on your own for a short period of time if necessary.

Why should you Get Ready?

As we recently learned with Hurricanes and Earthquakes as well as other natural disasters, preparation is the best method of coping with devastating long-term effects. Threats of bioterrorism, disease outbreak, and even fire are also emergencies which could greatly impact our campus community if the appropriate measures are not taken before the event occurs.

By Getting Ready, you will be prepared to respond to the University's Emergency Operation Plan, have a plan to contact the department and your family, know where and how to find information,

The University of Maryland has implemented the Early Warning System, a siren that sounds on campus when dangerous conditions are imminent, and created an Emergency Operations Plan. Information on how the University is preparing for emergencies is available at: www.umd.edu/emergencypreparedness/.
